RESEARCH ROADMAP
Announcement

Tuesday-Wednesday
October 7-8, 2014

Memorial Student Center
Texas A&M University
Joe Routt Blvd
College Station, Texas 77843

The Ocean Energy Safety Institute will convene top academic and research experts from various companies, universities and organizations throughout the world for an unprecedented think-tank workshop to address the development of an, “Ocean Energy Safety Research Roadmap for the 21st Century.” Areas to be discussed will include Emerging Technologies, Risk Management and Safety Management Systems, and Operating in the Arctic Environment. Attendees will collaborate to determine the specific areas of future research needs, devise a research agenda, and discuss possible funding opportunities. The workshop will be held October 7-8, 2014 and consist of the following segments:
  - General session: Presentation of current research activities by selected invitees.
  - Breakout groups to focus on specific areas of future research needs.
  - General Session:
    - Report back from the breakout groups
    - Research agenda
    - Funding possibilities
    - Need for collaboration

Registration will include continental breakfast, lunch and refreshments throughout both days.
